

General Observation / Color-Simulated Sample / Basic Mortar Analysis Form

Please send this completed form with your sample to: LimeWorks.US, P.O. Box 151, Milford Square, PA 18935 using the United States Postal Service. Please call 215-536-6706 first if you are intending to send this form and your sample via UPS, FedEx or for any overnight deliveries.

Please check this box if you just want a free initial observation and a recommendation regarding the brick, stone or mortar you're sending. We will call you at the phone number you provide.

Please check this box if you want a Color-Simulated Sample to be sent to you based on Natural Hydraulic Lime Materials. Cost is \$125 per sample for 2 lb of custom mortar. (Each additional Color-Simulated Sample has a reoccurring charge of \$125 per sample)

Please check this box if you want an Acid Digestion Basic Mortar Analysis and Report to work from in order to reproduce a historic mortar using your own local regional sands or to go along with the Color-Simulated Sample you may be also requesting. Cost \$400 per sample. Color report e-mailed to the address you provide.

Include a check for appropriate fees or have credit card information ready when we call to discuss the application after receiving the sample from you. We accept Visa, Mastercard, Discover and American Express.
